Dear Sir,

I have known Louis Dondino for the last four years and must say it is a shame that such a man is in Prison. He worked for us about 2 years. I always found him Honest and Peaceable. He had a boy about 10 years old and I must say the way he cared for and provided for that Boy who was sickley, was credit to him.

I know if the Pardon Board knew Him as well as I do they would not Hesitate to pardon Him.

The Man has very little Education and I think he did not think what a terrible thing he was doing. I could write a Volume about Him and Could not say one word against Him, only the act He is serving for. Which, I am sure he was led a stray by getting among the wrong people.

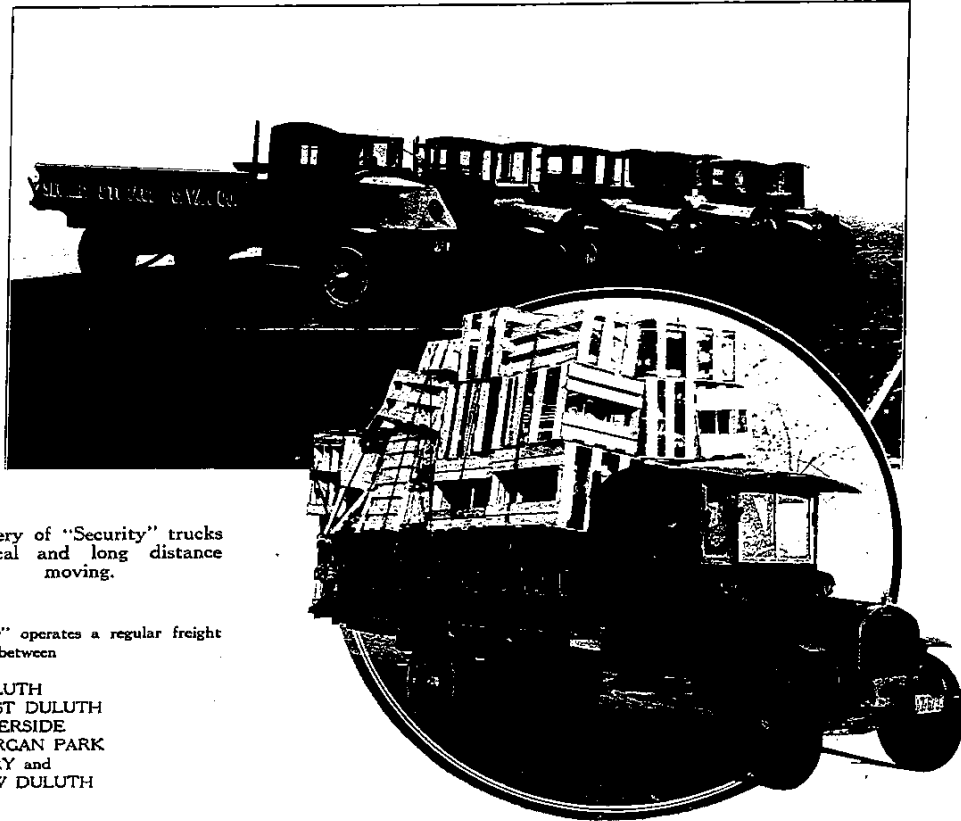

He has always helped His Parents, who are old and not in very good circumstances. So hope for ~~their~~ sake and for the boys sake and for the lesson which, he has been taught that his pardon will be given to him.

Very Truly Yours,
Security Storage and Van Co.
